

OPTIONAL CALLING PLAN

1. General

This service is furnished under the guidelines contained in the General Regulations portion of this tariff. In addition, the following regulations apply.

1.1 Optional Calling Plan (OCP) is an optional offering of Long Distance Message Telecommunications Service to residential and business local exchange customers whereby subscribing customers receive a discount on qualified long distance usage.

1.2 Qualified usage for this plan will be all intrastate intraLATA customer dialed station-to-station, sent-paid, non-coin minutes of use. For all OCP options except Point-to-Point, customers placing calls which originate and terminate in the same LATA may use their exchange telephone company calling card where billing capability exists. In this case, the usage portion of the call will be included in the billing option selected for rating purposes. For such calls, the applicable service charges in Section 2 of this tariff will still apply. For Point-to-Point, only customer dialed station-to-station, sent-paid, non-coin minutes of use apply.

1.3 Optional Calling Plan is available to residence and business customers located in the State of Texas.

1.3.1 Optional Calling Plan is not offered in connection with Foreign Exchange, Foreign Serving Office or Customer Owned Pay Telephone.

1.4.1 Customers may subscribe to more than one Optional Calling Plan where the capability exists. Calls will be rated by only one pricing option. Calls applicable to more than one plan will be billed in the following sequence:

1st - Point-to-Point Option as described in paragraph 1.2.

2nd - Other Optional Calling Plan Option as described in paragraphs 2.1 and 2.2.

1.4 The minimum service period of subscription to a particular plan is 30 days per plan.
